Source of data: Sustainability Disclosure Database, retrieved on 30 March 2020. Information assesses reports with publication year 2018. GRI tracks reports by publication year. Report registration is an ongoing process. GRI still collects reports published in 2018 and 2019; therefore, these numbers are not final or exhaustive and only represent what GRI is currently aware of. The list of sectors does not include organizations that have chosen ‘Other’ as their sector. Regional designations are for statistical purposes only. The boundaries shown in this map are for general reference only. Their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights of ownership or entitlement and they are not legal land descriptions.
